

This practical book explains the basic rules of portraiture, as well as covering more complex ideas of image making. Set out in chronological order as a photographer would approach a shoot, it explains each step of the process, including post-production and printing. Explains how to make the most of your camera and lenses, and the fundamentals of photography. Advises on how to approach shoots, whether for a baby or for a larger family grouping, and suggests poses for successful portraits. Explores the more creative aspects of photographic portraiture and includes master classes on more in-depth areas of portraiture. This practical book will help you learn about portrait photography and how to work creatively to take great photographs. Aimed at all professional and amateur photographers including the full range - portrait, glamour, hair, beauty and fashion. Superbly illustrated with 106 colour photographs. Saraya Cortaville is one of the most respected UK portrait photographers and regularly teaches workshops.

The Savage Dead, Mistress of Her Own Thoughts, Galaxy Science Fiction, May 1957 (Volume 14, No. 1), National Audubon Society Guide to Nature Photography: Digital Edition, An Introduction to Critical Care Medicine (n=1 series),
