

David Groome with Nicola Brace, Graham Edgar, Helen Edgar, Michael Eysenck, Tom Manly, Hayley Ness, Graham Pike, Sophie Scott, and Elizabeth Styles. An Introduction to Cognitive Psychology: Processes and Disorders is a comprehensive introductory textbook for undergraduate students. The third edition of this well-established text has been completely revised and updated to cover all the key areas of cognition, including perception, attention, memory, thinking and language. Uniquely, alongside chapters on normal cognitive function, there are chapters on related clinical disorders (agnosia, amnesia, thought disorder and aphasia) which help to provide a thorough insight into the nature of cognition. Key features: Completely revised and updated throughout to provide a comprehensive overview of current thinking in the field Accessibly written and including new authors, including Sophie Scott, Tom Manly, Hayley Ness, and Elizabeth Styles, all established experts in their field A new chapter on Emotion and Cognition, written by Michael Eysenck, the leading authority in the field Greater coverage of neuropsychological disorders, with additional material from the latest brain imaging research that has completely revolutionized neuropsychology Specially designed textbook features, chapter summaries, further reading, and a glossary of key terms A companion website featuring an extensive range of online resources for both teachers and students. Written to cover all levels of ability using helpful figures and illustrations, An Introduction to Cognitive Psychology has sufficient depth to appeal to the most able students while the clear and accessible text, written by experienced teachers, will help students who find the material difficult. It will appeal to any student on an undergraduate psychology degree course, as well as to medical students and those studying in related clinical professions such as nursing.

Extraordinary verso, Politics, Time, Flying, and Voices: A Collection of Short Stories, From Needles to Hook: Complete Guide to Converting Knit Patterns to Crochet, Dream Alchemy (Life & Shadow) (Volume 1), Earth - Last Sanctuary (Universe in Flames) (Volume 1), Methods in Enzymology, Part D: Carbohydrate Metabolism, Asthma: Comorbidities, Coexisting Conditions, and Differential Diagnosis, The Dark Door, Orthopaedics and Rheumatology In Focus, 1e,
