

Plantes Remeieres del Ripolles (Catalan Edition)

A *Plantes Remeieres del Ripolles* es descriuen les plantes remeieres mes comunes del Pirineu, especialment de la comarca del Ripolles. El llibre es una recopilacio dels articles sobre aquestes plantes que shan publicat a diferents numeros de la revista *La Tira*, dirigida per Roser Salomo. Els articles sobre cada planta sordenen alfabeticament i descriuen les propietats de cada una, per a que serveixen, com shan demprar aixi com algunes curiositats. Tambe inclou una fotografia de la planta per poder-la identificar amb facilitat. Entre altres coses, aprendrem que el romani floreix gairebe tot lany i que se sol recollir a la primavera o estiu, que l'espigol, com a infusio, tradicionalment sha fet servir com a tractament per a les infeccions del pit, tos i refredats, o que un test d'alfabrega a la finestra de l'habitacio allunya els insectes. L'autora, Roser Salomo, ens invita a redescobrir els remeis casolans tradicionals que les herbes ens aporten en un intent de recuperar tant el saber tradicional popular com ajudar-nos a viure una mica millor i restablir la salut perduda als estressants quefers quotidians de la nostra societat actual.
