

## Corry the monkey is done sucking his thumb (Smart Stories Book 2)

Corry the monkey wants to play with the older animals but he still sucks his thumb! This story helps children to stop thumb sucking by assisting the child to subconsciously accept behavioural change as he or she listens to a story. Children learn through stories and easily associate with the characters in stories. This natural tendency provides a parent a wonderful opportunity to guide his or her child's behaviour and feelings and teach them understandings with which to improve their EQ. In the ebook, notes are provided which teach parents, educators and play therapists the valuable skills of story telling. The notes are interspersed in the story and explain why certain words and ideas are offered in the story.
