

Healing from the Gospel (Higher Medicine)

Dear reader, you have discovered and opened this book in the hope of finding something new for yourself, something that will give you a way to solve, or at least to understand, health problems of your concern relating to yourself and to your loved ones. This book objectively and impartially lays out real facts of unusual from the perspective of medical science but natural from the positions of the Spirit of Truth phenomena of health recovery, even in cases where modern science was powerless. Based on the data obtained the true cause of human illnesses was established and a potential way of their elimination was found. In parallel with the development of medical science accumulation of objective and recorded facts of miraculous healing from diseases continued. When reading, analyzing and accepting in our mind acts of Jesus Christ, one begins to understand the existence of some secret and omnipotent force, i.e. energy, which is able to affect human health in ways that are so much more powerful that the modern medical science in its entirety. One can oppose, object and mock on this matter endlessly but real and objective facts of achievement of clinical remission and even a complete cure of severe diseases in the course of, even though sometimes long-term, bioenergy treatment confirm the statement: Practice is the sole criterion for testing truth.
