

# Emergency Medicine Clerkship Primer: A Manual for Medical Students

The Emergency Medicine Clerkship Primer: A Manual for Medical Students is an authoritative review designed to assist medical students throughout their emergency medicine clerkship. The manual highlights many aspects of the unique specialty of emergency medicine. This guide provides the reader with a detail-oriented approach to thinking like an emergency physician; it is essentially a how-to manual. The Primer can be considered a supplement to the many high-quality emergency medicine texts currently available. However, different from these, the Primer focuses on aspects of our specialty that are often overlooked or underrepresented in traditional textbooks. This manual is a must-read for medical students preparing for their emergency medicine clerkship, regardless of their intended career path.
