

Prelude and Celebration: Conductor Score & Parts (Eighth Note Publications)

An interesting element of this work is that the two main themes were originally composed by the young students on recorders. The piece was built around those themes and the result is a colorful and contrasting work full of rhythmic and melodic interest. On the last section of the Celebration, all the players join together to sing a C pedal tone as a warm accompaniment for three soloists. It is a way to show that we need unity, support and fun in a band to achieve successful performances.
