

Atlas of Fundus Fluorescein Angiography

Written by one of the worlds leading ophthalmologists, Atlas of Fundus Florescein Angiography provides a comprehensive look at fluorescein angiographic findings in different disorders. Covering technique and methodology, the atlas provides the foundation needed to incorporate this discipline into ophthalmic evaluations. Supplying images for pattern recognition, it helps clinicians make diagnoses more accurately and offer more appropriate and effective treatments. The authors provide new insight into pathophysical mechanisms of diseases in the ocular fundus and offer unusual and challenging images that enhance recognition of these peculiar diseases.
