

Imber shows women how to keep the signs of aging at bay with a prescriptive, commonsensical plan of skin care, exercise, vitamins & diet, stalling & often eliminating the need for surgery. By following the earliest & most basic treatment for skin care & maintenance, you can maintain a youthful appearance for a lifetime. You can return your skin to the exuberance of the youth corridor -- the years between 30 & 55 during which the most drastic physical changes occur. Imber's easy-to-follow regimes & more than 25 helpful illustrations make timeless beauty a reality. Also catalogs beauty products that give women the best results & describes successful procedures in plastic surgery.
